more weight than the utterances of stransers residing in far-away places. Read the following:

Mrs. Charles Higgins of 1635 Franklin avenue says: "A short time before I went to the Wolf-Wilson Drug Company, at the corner of Sixth and Washington avenue, for Doan's Kidney Pills I had been laid up in bed with a lame and aching back. I had attacks of it for fifteen years, and when I positively state that I am unable to adequately express what I suffered I am not overstating my condition. When a person has been confined in a hospital for six weeks, when doctors are unable to reach the cause of the trouble, that person is naturally enthusiastic about the means they employ to bring relief. To say that I indorse Doan's Kidney Pills mildly expresses my opinion of them. They have put me in good, sound health."

IS CONVICTED OF VAGRANCY.

W. F. McGrain Will Be Held to Answer Several Charges.

W. F. McGrain, alias W. F. Martin, alias M. C. Madden, alias M. C. Maher, who says that he is a third cousin of President Mc-Kinley, was adjudged a vagrant yesterday in the court of Justice of the Peace I. W. Campbell on the Olive Street road near Sixty-sixth street, and sentenced to sixty days in the County Jail in Clayton.

McGrain was arrested at the Delmar race track on July 16 by Officer Jack Hanson on a warrant charging him with being a fugi-tive from justice. When taken to jail and searched letters were found that showed that he had been in correspondence with a number of women in various parts of St. Louis. These women had answered adver-tisements that McGrain had had inserted in a local newspaper for a companion to ac-company his daughter to Eastern watering

Southern Pacific to Issue From Ten to Fifteen Million Dollars of Bonds.

TO SUBSTITUTE OIL FOR COAL

Plants Will Be Bought and Necessary Conduits Laid-Heavier Rails - Pennsylvania Gould Conferences.

REPUBLIC SPECIAL New York, July 30 .- The Southern Pacific Company is about to issue from \$10,000,000 to \$15,000,000 of new bonds to be used largely for making the change in motive power on the Texas and California lines from coal to oil, for constructing pipes to transfer oil and for oil properties which the company has acquired, or is about to acquire, in order to guarantee an abundant supply for

years to come. Officials of the Union Pacific and Southern Pacific companies have held several important conferences since the arrival of President Charles M. Hays in this city with a view to mapping out needed improvements on the two systems. Immediate attention is to be given to the Southern Pacific, whose traffic growth has been very rapid and which, in the opinion of the interests which control the company, justifies the ex-penditures of liberal amounts for improve-ments and for rendering the readway capable of hauling traffic at a lower ratio of

expense.

One of the vital weaknesses of Southern Pacific's operations is the high cost of fuel, The company is at a great disadvantage as compared with the Atchison, for example, compared with the Atchison, for example, and if the former could secure its fuel equally cheap it would mean a substantial dividend on Southern Pacific stock.

The discovery of oil in paying quantities in Southern California and Texas was watched with interest by Southern Paolific officials and careful observation convinced them that enough oil could be obtained and at a low cost to justify the general substitution of oil for coal on many divisions. The late President Huntington had used oil on many engines in California and found

The late President Huntington had used oil on many engines in California and found it cheaper than coal before the former was discovered in large quantities.

Since the recent "strikes" the price of oil has tumbled to such a basis that an official of the Southern Pacific company estimates that there will be a saving of at least one-third in fuel where the substitution is made. The concomy may be still greater. The cost of changing the fire boxes and certain other parts of the engines will not be large.

In addition to the substitution of oil for coal, the company will make large expenditures for replacing bridges along the main divisions and in laying heavier rails. The rails taken up will not be wasted, but will be put down on less important divisions.

Investigation by the officers showed that a number of them had given McGrain money to bet on the races. His principal victim was Mrs. Laura Hamilton of No. 3937 Washington boulevard. Mrs. Hamilton gave up a position worth \$70 per month to accept the one offered her by McGrain, gave him \$10 to bet on the races, promised to marry him and then went to New York.

Post Office Inspector Sullivan, who has since been working on the case, received a letter from Mrs. Hamilton yesterday, saying that she had a position in a store there and was trying to forget her St. Louis, Kansas City and Colorado Raliroad Company yesterday put a force of 200 men to work in relaying the rails of its Dripping Spring branch, which was abandoned about a year ago.

The Dripping Spring branch runs from the Bonner tank near Vigus, on the main line, to the Dripping Spring, which is near lake. There are two lakes in the Creve Coeur bottom and the lower lake is by far the larger of the two. The Transit Company completed a branch last year that runs to the creet of the hill about 500 feet above the spring, and the immense patronage that it has had from the very beginning has caused the Colorado Colorado.

They ask that persons now acting as officials of the Mobile and Ohio be prohibited from operating it and that the receiver, when appointed, advertise the names of all Mobile and Ohio stockholders, so that it can be ascertained who are the owners of the road.

PENNSYLVANIA-GOULD.

Several Conferences Held by Officials

of Both Interests. of Both Interests.

New York, July 33.—The Mail and Express says: There have been several conferences during the last three weeks between representatives of the Pennsyivania and Gould interests, which may result in some disposition of the new Wabash line into Pittsburg, and possibly the establishment of a close working agreement between the several systems involved. In this event probably the rival road will not be built.

It is assumed that under the arrangement the Missouri Pacific would have a suitable traffic arrangement for using the Pennsyi-vania system as an Eastern outlet.

Gas Coke for Locomotives. The first experiment of burning gas coke in a locomotive furnace out of Cincinnati was made by the Cincinnati, Hamilton and Dayton Railroad, and, although an official report has not as yet been made, it is understood that the result of the experiment was highly satisfactory to the officials of the road.

was highly satisfactory to the officials of the road.

Gas coke has for years been recognized as a superior fuel for producing steam, but railroads have been prevented from its use by the fact that the supply is limited and prices ruled rather high. A firm at Hamilton, O., however, assured the railroad company that a supply of the fuel would be provided at a price that, when the steammaking qualities of coal and coke were taken into consideration, would prove a saving to the company.

The experiment which was made necessitated but a slight change in the furnace of the locomotive, and the trip to Dayton was entirely free from the smoke and dust produced by the use of soft coal.

The results of the experiment as regards the steam-providing quality of the coke and the quantity used in traveling per mile will be figured out and submitted to the officers of the road.

New York's Anti-Scalping Law.

Although the Appellate Court of New York has declared the last enacted anti-scalping law of that State unconstitutional, it is probable the case will be carried to the Supreme Court, in the belief that that tribunal may take a different view in the matter. The present status of the case is somewhat of a disappointment to railroad attorneys, who drafted the law and who

attorneys, who drafted the law and who believed they had met all the points raised by the Court of Appeals, when it invalidated a previous statute on the same subject. They find it hard to understand how the Pennsylvania law can be sustained by the highest court of that State and the one in New York, whic his patterned after it, be declared unconstitutional.

While the court does not appear to uphold the law as constitutional, the main point raised in the new law is established. That was to prevent the ticket brokere from dealing in special rate and limited tickets. Now the court in its opinion says it is not competent for the Legislature to prohibit the purchase and sale of tickets over transportation lines when such sale is not in violation of any contract made with the transportation companies when the sale of such tickets is made by them. This is taken by the general passenger agents to mean that in the opinion of the court it is illegal for ticket brokers to deal in special rates or limited tickets, although it does not uphold the law which prohibits their dealing in unlimited tickets.

Owned a Yacht, and Lived at Swell Clubs, Selecting Their Victims From the Gilded Youths of Paris.

Paris, July 30.-The police here have un earthed a gang of turf swindlers and card sharps whose operations were characterized by extraordinary audacity. The first discovery was made at the end of May, when a horse named Collmacon (the Snall) and known as a worthless plater, won a race at Colombes, easily, with the betting 12 to 1 against the horse. A week later Colimacon engaged in a similar performance at Maisons Laffitte.

The Jockey Club investigated the running | States Steel Corporation. of Collmacon and found that a first-class English race horse had been substituted for the original Colimacon by a Belgian named Hereboudt, who had previously been warned off the French race courses. The police then took the matter up and discovered that Hereboudt was the head of a perfect organization of crooks working in France and Belgium.

The members gathered at the general offices of the Amalgamated Association carly in the morning and at 9:30 o'clock were called to order by President Shaffer. When the meeting was opened all but conference were required to leave the room. The discussion started after President Shaffer had gone over the details of the conference he had had with Mr. Morgan and President Schwab in New York. Secretary Williams read his report of the conference and also the propositions that had been made by the officers of the United States Steel Corporation. SANG REVOLUTIONARY SONG.

Socialists Caused Disturbance in Brussels Chamber of Deputies.

Brussels, July 30.-The Socialist member of the Chamber of Deputies made a disturbance in the House this morning, during which the "Internationale" was sung to the accompaniment of slammed desk lids. Taking exception to the refusal of th President of the Chamber, M. de Sadeleer, to put a metion for adjournment, a section of Deputies commenced a noisy demonstration, which made it impossible for the President to maintain order. The din was terrific, and the disorder culminated in the socialists and Leftists lustily shouting the

revolutionary song mentioned.

As the disorder continued, the "Carmag ole," the "Marseillaise" and the "Internationale" being sung alternately, accompanied by whistling, shouting and a gen-eral tumult, the President closed the sitting, the Socialists shouting: 'It will be the same next time." New York over the long-distance telephone. At the afternoon meeting of the board all were present who had taken part during the earlier session, with the exception of Mr. Garland, At the close of the day's session the members of the board slipped away one by one to their respective homes until none was left at headquarters but President Shaffer and Secretary Williams, They at first refused to give any information, but finally President Shaffer volunteered the statement that an adjournment had been taken until to-morrow. Further than this he would say nothing, and admitted that even the an ouncement of adjournment was more than he should have said. Secretary Williams said matters were in such a condition that nothing could be \$25.00 Reward
